Concerning the prices listed above, take in consideration that:

- many hours of research were necessary to localize and find the B17s, whose parts are used as canvas
- each painting is unique and made with the care to reproduce the style of the epoch of WW II
- the opportunity to have a REAL part of B17 is rare
- the 3D effect given by these paintings (because of the non flat canvas) on a wall is really excellent

It is also possible to have your own Nose Art painted on a part of B17.
